2008													26%	43%
2007													26%	39%
2006														36%
2005														
2004														
2003														
2002														
2001														
2000														

Equipment values tend to stabilize near the end of the normal life. At this point, condition and usage become more important than actual age.

These indexed rates are to be applied to the "Original Cost" of personal property.

** - This column should be applied to computers & peripherals.*
